

It is my understanding that you are considering new regulations regarding Low Power FM stations. I also understand that this may disrupt my local K-Love FM translator station. This is quite disturbing to me and would negatively affect my daily life. K-Love is a source of positive encouragement to me, and judging by the bumper stickers, to many of my neighbors and members of my community. K-Love provides a safe place for my children to listen and a daily reminder of my faith. I can always count on K-Love to provide encouragement, news based on my personal faith, and local events and happenings that are important to me. K-Love provides the Christian radio listener a place to relax, be encouraged, and learn. It also gives the non-Christian a commercial free place to hear non-offensive music, and a place to turn if they are in need of fellowship or spiritual leadership. Everyone can benefit from the morally uplifting messages of K-Love. Please don't take this one safe place away from me, my family and community.

Sincerely, Kelly Dewey
